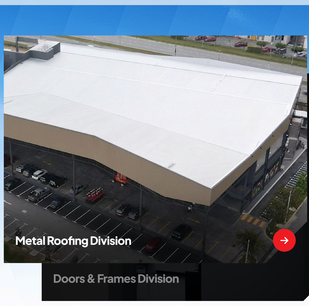
Customer-Centric Service

Excellent Manufacturing Practice



Metal Roofing Division

Doors & Frames Division

Best Metal Roofing, Doors & Frames Manufacturer in Malaysia

Since its establishment in 1990, Roofseal Malaysia has grown from a metal roofing subcontractor into an established manufacturer and supplier serving Malaysia's construction industry. Today, our business is built around two core divisions: the **Metal Roofing Division** and the **Doors & Frames Division**. We manufacture and supply **sheet metal** roofing systems, roof insulation solutions, roof components, structural products, metal door frames, and fire-rated doors for residential, commercial, and industrial applications.

Backed by more than three decades of experience, quality coated steel materials supplied by NS BlueScope Malaysia, and a skilled workforce, Roofseal has built a strong reputation as one of **Malaysia' s leading metal roof suppliers** while continuing to expand its expertise in doors and frames. From complete **roofing systems** to a dependable **home insulation solution**, our focus is to deliver practical, durable, and reliable building products that meet the needs of modern construction projects across Malaysia.

LEARN MORE

Built Under the Roofseal Name

Roofseal develops and supplies its own range of roofing products and system solutions, built to meet Malaysia's construction needs with consistent quality, reliability, and practical performance.
